## 4 planets with emphasis this year:

*The “inner planets” — the sun, moon, Mercury, Mars and Venus—move quickly through the zodiac. As a result they affect your day-to-day life, moods and habits. The “outer planets” — Jupiter, Saturn, Neptune, Uranus, and Pluto — move slowly and shape the bigger trends in your life.*

### Mars - Red

Zodiac: Aries

Tarot: Tower

Number: Three

Meaning: Energy, Vigor, Initiative

Mars is about your motivation, your initiative, your aggression, your confidence, your inner drive, your physical strength and stamina, what you want to achieve, where you put your energy, and how much of a risk-taker you are. Mars is what gets you up and going every day. It is how you express your anger. It's also your sex drive, and what you desire for and give in a sexual relationship.

### Venus - Yellow

Zodiac: Libra and Taurus

Tarot: Empress and Lovers

Number: Six

Meaning: Beauty, Harmony, Attraction

Venus governs your romantic relationships, who you attract, how you attract them, your social skills, how affectionate you are, what you consider beautiful, what you want in a partner, and how you interact with others. It also oversees money – both spending and receiving (earning).

### Uranus - Blue

Zodiac: Aquarius

Tarot: Fool

Number: Eight

Meaning: Change, Invention, Revolution

Uranus governs where you seek freedom, where you're unconventional, where you stand out, what makes you rebel, where you do the unexpected, and where you'll find change. Uranus is about sudden change, such as an unexpected opportunity appearing out of the blue. It also involves events that happen in an instant, such as accidents or love at first sight. Uranus also involves intuition in the form of those times when you just know something or have an “aha” moment.

### Neptune - Blue

Zodiac: Pisces

Tarot: Hanged Man

Number: Nine

Meaning: Intuition, Dreams, Psyche

Neptune governs what inspires you and where you're easily deceived. It's about illusion, confusion, imagination, and creativity. Neptune can be illusive and hard to tie down. It's the areas where you see what you thought was real isn't, and what you thought wasn't real is. It's like a blind spot where you don't see something until later, but you probably needed to see it from the very beginning.

## Reading & Forecast

---

You have ended one book in the story of your life and are now starting a whole new adventure. This year will be a time of rooting-in, getting settled, living your new story, and therefore, you'll be creating and developing the tools, resources and skills you need to fulfill your new role and direction.

You'll also face challenges aimed at the parts of you that are not in alignment with your best interests. This is a year of big changes and it's about how you will deal with what's brought to you.

*\*\* KEY: Thoughts and actions manifest quickly. Be conscious of what you are asking for.*

### **Changes in you:**

#### *Positive Aspects-*

This can be a great year of developing yourself, achieving your goals, and seeing material gain from all of your efforts - not just financially, but in health and relationships too. It's about general 3rd dimensional abundance, with security and safety. You feel protected and looked-after.

#### *Negative Aspects-*

You can fall prey to reacting to circumstances and events outside of your control in a negative or non-productive manner. Stress and forces of low energy can exacerbate your negative feelings about what you see happening around you and manifest negative, PERMANENT consequences quickly for you, if you act from that space.

---

### **Changes in society:**

#### *Positive Aspects-*

Continued awakening for many as a growing collective are activated. Those who are already on the path will find their gifts and understanding growing. There will be a trend to "partner-up" - you'll see more marriages, more friendships, like big and small tribes being formed everywhere. This can be a time of great, positive change and enlightenment for large groups of people.

#### *Negative Aspects-*

Conversely, for the others, this is a time of great change and with that change, comes upheaval, displacement, loneliness, isolation - with negative energy around lack, violence, and natural catastrophes.

## ***Earth/Nature changes\*:***

### *Positive Aspects-*

As awareness continues to grow, more will become sensitive to earth and nature as living organisms and energy. Nature is a force (and like all forces) recognizes and supports those people, places and things that are connected with it.

### *Negative Aspects-*

We are undergoing critical energy changes on our planet coming from inside the earth, on top of the earth, and cosmically - changes that happen cyclically, and with great impact. People everywhere will react in fear and anger from the loss of resources and security promised by community and government as a result.

We'll witness more volcanoes, floods, storms of all types, loss of crops and increased disease.

## **What Spirit shows me about the future:**

*Disclaimer: The events I see unfolding are over the next 5-7 years. Like all events, time and results are fluid and can change based upon other events happening concurrently.*

There will be a continuing widening of the gap between those who have and those who don't in 2019. Negative perception and attitudes will point toward the "they/them" that govern/control - (this is locally, nationally - this will be seen worldwide).

There is going to be volcanoes, snow/water events, disease outbreaks, and war between countries, with internal, civil conflict growing throughout the world too.

Financial markets will go up and down and be volatile. Many will lose retirement. Crypto-currencies will make gains in acceptance/usage.

Collective energy is unbalanced and negatively influenced at this time. We are at the precipice of a cycle of tribulation years... In 2015, I was shown a vision of events leading up to a great future breakdown: volcanoes, riots, missiles... and then the power goes out...

Why would this happen and why do we have to experience it?

- ★ We have lived within a certain framework and laws that are changing. As above, so below - we'll experience spiritual, cosmic and earth events that are organic and scripted.
- ★ We can only enter a new age after the previous one has been denied. The system must break completely down for the new to emerge truly, and be accepted fully.
- ★ The new age can be dark or filled with light - we have a choice on which team we play for and the establishment of a new collective conscious.

*\*\*\*General definitions about chakras, planets, etc.. are from information I researched, old and new and thus, I have not given proper credit as these are my notes for the reading... and not meant for sharing other than with those who have watched the information and want to understand more of the connections.*
